Subject: Declaration of Ownership of Neurvix™ Invention

I, Terrell Robert Annunziata, as the Founder and CEO of VLEYR Technologies Inc., hereby declare the following:

Ownership Assertion: I am the original inventor and owner of the system known as Neurvix™, developed under VLEYR Technologies Inc. This system represents a novel approach to enabling user-defined AI governance through plain-language rules, compliance monitoring, and transparent logging, with initial conceptualization and development commencing prior to July 31, 2025, as evidenced by related provisional patent filings with the United States Patent and Trademark Office (USPTO).

Nature of the Invention: Neurvix™ is a privacy-first web application designed to empower users to set rules for AI systems in plain language, monitor AI outputs for compliance, and maintain immutable audit trails. It employs a no-code platform with integrated natural language processing (powered by public AI models), real-time data storage, and hashed logging on distributed systems, ensuring GDPR, HIPAA, and EU AI Act compliance. The system is adaptable for healthcare and HR use cases, with potential expansion to other trust-critical sectors. Specific technical details, including rule-parsing algorithms, logging protocols, and integration methods, are withheld as trade secrets and are protected under ongoing patent applications.

Intent and Rights: I assert my exclusive rights to the invention, its applications, and any derivatives thereof. This declaration serves as notice to the public that any unauthorized use, reproduction, or development of a system substantially similar to Neurvix™, as described herein, may infringe upon my intellectual property rights. VLEYR Technologies Inc. reserves the right to pursue legal action against any party attempting to exploit or replicate this invention without permission.

Public Record: This document is uploaded to the Wayback Machine (web.archive.org) on July 31, 2025, to establish a timestamped public record of my ownership and intent, further supporting the priority of my invention as of this date.

Signature:

Terrell Robert Annunziata

Founder and CEO, VLEYR Technologies Inc.
